

## Software Testing Engineer

For our offices in Merelbeke, Belgium we are currently looking for a highly motivated Software Tester. You will join our QA team, which assists the development team in delivering high-quality software products to our customers.

### About our company

With offices in Belgium, Germany, Italy, US and a global partner network, HYBRID Software is a software development company focused on innovative productivity tools for the graphic arts industry.

HYBRID Software's CLOUDFLOW workflow, our PACKZ editor, and our integration products offer a unique set of advantages that include native PDF workflows, vendor-independent solutions based on industry standards, scalable technology and low cost of ownership. These products are used by hundreds of customers worldwide in all areas of prepress and print.

### Your Responsibilities

- You will carry out manual and automatic testing on our interactive applications and on our workflow products.
- You are in direct communication with Development for problem analysis and testing.
- Involvement in activities such as requirements analysis, planning, test design, security and vulnerability testing, performance, releasing, documenting, training and post-release support.
- You will have the opportunity to develop and support automated testing scripts and procedures.

### Your qualifications

- Experience of manual testing; and test automation tools would be a bonus.
- Scripting languages.
- Good written & verbal communication and the ability to work in a team.
- A good understanding of the software development process will help.
- A degree in 'computer science' or 'graphics and digital media'.
- Fluent in reading, writing and speaking in English.

### What we offer

- We offer a job with flexible working hours and a relaxed working atmosphere.
- A competitive salary in accordance with your experience.
- Excellent terms of employment in an international focused organization
- At Hybrid Software we value our customers and our employees. We have a flat organizational structure and we strongly encourage any initiative coming from our people.
